Top White House Cybersecurity Official Confirms Biden Mental Decline

James O'Keefe, founder of Project Veritas, [released a video on the O'Keefe Media Group X page](#) showing an undercover video of White House Cyber Official Charlie Kraiger.

According to Kraiger, the White House is concerned about President Joe Biden's cognitive ability, but cannot publicly acknowledge the concerns, saying, "They've got to toe the line.... They know it. Of course they do. But it's the optics and like the scandal I think they feel wouldn't be worth it.... I'm just telling you what I've heard, like yup.... Does it make sense? No but that's what I've heard."

O'Keefe recorded Kraiger [confirming reports of Vice President Kamala Harris' staffers](#) quitting, saying she "hemorrhages black staff" and "They quit on her en masse." Kraiger confirmed concerns of Biden's mental decline, saying, "I don't think he has that [dementia] clinically yet, um, but he's definitely slowing down," and stated, "I think they need to get rid of him or get rid of her."

Kraiger stated there were discussions about Democrats removing Harris from the ticket, but were unable to "remove the first black lady to be vice president" due to the messaging they believe it would send to voters.

The conversation included speculation about Michelle Obama running for office, with Kraiger stating he didn't believe she will run, saying, "I had a meeting with Michelle Obama at one point when I was an intern and someone asked her, 'Will you ever run for office?' and she said, 'No.' Emphatically no. She said, 'I will never run for office. It does not interest me. I've seen how like' she said it a lot more eloquently, of course, than I'm going to say it, but she was like, 'I've seen all this s**t my husband has had to go through and that does not interest me.'"

O'Keefe questioned Kraiger on how he can work in cyber security for the White House and meet with him, saying, "What does it look like to the American people that the cyber security specialist at the White House is sitting across from the founder of Project Veritas? What type of cyber security operation you guys running over there?"
