## A Spanish View of Europe's Dilemma

The following short article was published in a Spanish Internet magazine, Gentiuno, on November 21, 2004. Written by Sebastian Vilar Rodriguez, it has been widely circulated on the Internet with good reason. It sums up the tragedy and present agony of Europe as it faces a very gloomy future. Its title is: "All European Life Died in Auschwitz," and this is what it says:

I walked down the street in Barcelona, and suddenly discovered a terrible truth Europe died in Auschwitz . We killed six million Jews and replaced them with 20 million Muslims. In Auschwitz we burned a culture, thought, creativity, talent. We destroyed the chosen people, truly chosen, because they produced great and wonderful people who changed the world.

The contribution of this people is felt in all areas of life: science, art, international trade, and above all, as the conscience of the world. These are the people we burned.

And under the pretense of tolerance, and because we wanted to prove to ourselves that we were cured of the disease of racism, we opened our gates to 20 million Muslims, who brought us stupidity and ignorance, religious extremism and lack of tolerance, crime and poverty, due to an unwillingness to work and support their families with pride.

They have blown up our trains and turned our beautiful Spanish cities into the third world, drowning in filth and crime. Shut up in the apartments they receive free from the government, they plan the murder and destruction of their naive hosts. And thus, in our misery, we have exchanged culture for fanatical hatred, creative skill for destructive skill, intelligence for backwardness and superstition.

We have exchanged the pursuit of peace of the Jews of Europe and their talent for hoping for a better future for their children, their determined clinging to life because life is holy, for those who pursue death, for people consumed by the desire for death for themselves and others, for our children and theirs.

What a terrible mistake was made by miserable Europe.

The thoughts expressed in this article left this writer somewhat numb. It sums up what a demented European leader perpetrated with the help of a highly civilized and cultured nation, and the price Europe is now paying for its madness. They've replaced six million highly productive and creative Jews with twenty million Muslims who produce nothing but misery, poverty, and hatred.

The Global Islamic population is approximately 1,200,000,000; that is One Billion Two Hundred Million,

or 20 percent of the world's population. Their contribution to the betterment of mankind can be summed by the number of Nobel Prizes they've won: a grand total of Seven. One for Literature. Four for Peace. And Two for Medicine.

On the other hand, the Global Jewish population is approximately 14,000,000; that is about 0.02 percent of the world's population. They have received 129 Nobel Prizes: 10 for Literature. 8 for Peace. 53 for Physics. 13 for Economics, and 45 for Medicine.

Europe will never regain its loss of Jewish writers, artists, musicians, scientists, entrepreneurs, educators, merchants, actors, engineers, and ordinary productive middle-class citizens. What they have in their place are people motivated by hatred and Jihad who contribute nothing to the European culture they despise.

But what is interesting is that more and more Europeans are beginning to realize what their nations lost and the Islamic future they are faced with. Probably the most outspoken anti-Islamic politician in Europe is Holland's Geert Wilders, leader of the Party of Freedom. He recently said:

Islam is the Trojan Horse in Europe. If we do not stop Islamification now, Eurabia and Netherabia will just be a matter of time. One century ago, there were approximately 50 Muslims in the Netherlands. Today, there are about 1 million Muslims in this country. Where will it end? We are heading for the end of European and Dutch civilisation as we know it. Where is our Prime Minister in all this?

In reply to my questions in the House he said, without batting an eyelid, that there is no question of our country being Islamified. Now, this reply constituted a historical error as soon as it was uttered. Very many Dutch citizens, Madam Speaker, experience the presence of Islam around them. And I can report that they have had enough of burkas, headscarves, the ritual slaughter of animals, so-called honour revenge, blaring minarets, female circumcision, hymen restoration operations, abuse of homosexuals, Turkish and Arabic on the buses and trains as well as on town hall leaflets, halal meat at grocery shops and department stores, Sharia exams, the Finance Minister's Sharia mortgages, and the enormous overrepresentation of Muslims in the area of crime, including Moroccan street terrorists.

Several groups and persons in The Netherlands have called for legal action against Wilders, while others have defended his right to free speech. Attempts to prosecute Wilders under Dutch anti-hate speech laws in June 2008 failed. However, on January 21, 2009, a three-judge court ordered prosecutors to try him. The Middle East Forum has established a Legal Defense Fund for Wilders' defense.

On September 11, 2010, Wilders was the headline speaker in New York City at the site of the proposed mosque at ground zero. He has come to symbolize the growing grassroots movement to stop the growth of Islam in the Western world. His film, *Fitna*, which reveals the violent and hateful nature of the Koran and Islamic ideology has been widely shown and can be seen on YouTube in a restricted format.

Of course, Wilders has received many death threats, but he still remains the strongest voice in defense of Europe's Judeo-Christian heritage. There are similar critics of Islam in other European countries but they have not had the impact that Wilders is having in the Netherlands. But as the Islamic noose tightens, there will be more voices in defense of Western values.

It is hard to imagine how civilized, Christian Europe could have descended to such barbarism as to have murdered millions of its most productive citizens. The Spanish writer is correct: Auschwitz, the murder

machine, was invented in Europe by Europeans, which has brought upon Europe a foreboding curse for their sins. Why did they do it? For what gain? Those of us who lived through those years of Hitlerian evil can only attribute Germany's demented racism as a manifestation of that innate depravity that John Calvin spoke of in his Institutes. There is no other explanation that makes any sense.
