## Quick Quotes

### Fed Chief Recommends Slowing the Economy to Fight Inflation

Jerome Powell (AP Images)

“It would be nice if there was a way to just wish inflation away, but there isn’t. We have to get supply and demand back into alignment, and the way to do that is by slowing the economy.”

*No, the way to stop inflation is to stop creating money out of thin air to finance U.S. government debt. And the way to do that is to cease funding unconstitutional spending (for foreign aid, military adventurism, and a host of other unconstitutional federal programs) and return to a precious-metal backed currency. Federal Reserve Chairman **Jerome Powell** is totally wrong and can’t be unaware of the absurdity of his suggestion.*

### 1,100 Scientists and Professionals Downgrade Propaganda About Climate Emergency

“There is no statistical evidence that global warming is intensifying hurricanes, floods, droughts, and similar natural disasters — or making them more frequent. However, there is ample evidence that CO<sub>2</sub> mitigation measures are as damaging as they are costly. There is no climate emergency.”

*The independent foundation **Climate Intelligence** (CLINTEL) chided scientists and politicians who promote unsubstantiated alarms about weather extremes. The 1,152 signatories of the conclusion aired by CLINTEL come from 15 separate countries.*

### Britons Remember Queen Elizabeth II With Appreciation Accompanied by Sadness

“In this changing world, she was a pillar of the old world. It’s nice to have something that’s stable and stands for good values.”

*British citizen **Richard Roe** flew home from his employment in Switzerland in order to be able to attend the funeral of the 96-year-old monarch. His attitude was overwhelmingly shared by his countrymen and millions more throughout the world.*

## **Biden's Forecasts for the Future Ignore the Reality of the Dollar's Declining Value**

Joe Biden (GageSkidmore)

"I'm telling the American people that we're going to get control of inflation. Their prescription-drug prices are going to be a hell of a lot lower. Their healthcare costs are going to be a lot lower. Their basic costs for everybody, their energy prices are going to be lower."

*In a televised interview aired on September 18, President **Joe Biden** promised to get inflation under control, without calling for an end to the government spendathon.*

## **Trump Assesses the FBI's Raid on His Home in a Warning to the American People**

"In reality, they're not after me; they're after you. I'm just in the way."

*In his terse but correct response to the outrageous sacking of his Mar-a-Lago estate, **Donald Trump** expressed his belief that the FBI, once a respected federal crime-fighting agency, has been converted into a federal force whose role is not so much to prevent crime, but to silence opposition to ever-growing federal power over the American people.*

## **Nationally Prominent Commentator Reverses His Support for a Convention of the States**

Glenn Beck (AP Images)

“I have been a supporter of the Article V Convention of States. I’ve been a pretty big supporter, vocal supporter. I’m reversing that today.... Because after some thought and prayer, we are not the people to open up this sacred document.”

*Prominent media personality **Glenn Beck** announced that he was withdrawing his previous support for the plan to revise the U.S. Constitution via the Constitution’s Article V. Promoters of the dangerous proposal, long combated by The John Birch Society, have said little about Beck’s change of heart.*
