Former Biden Press Secretary Insists Democrats Don't Favor Late-term Abortions

"No one is rooting for late-term abortion. No one is running on the platform of aborting viable babies.... Not Joe Biden, not Kamala Harris, not Hillary Clinton, not Nancy Pelosi, or any other politician demonized by the right-wing, roots for late-term abortions."

*Former White House Press Secretary **Jen Psaki** now hosts Inside with Jen Psaki on MSNBC. She completely ignores the Democratic Party's 2020 platform, which has no limits on abortion and continues to seek taxpayer-funded abortion by pushing for congressional repeal of the Hyde Amendment.*

Former Clerks Defend Clarence Thomas for His "Unimpeachable" Integrity

"Different paths led us to our year with Justice Thomas, and we have followed different paths since. But along the way, we all saw with our own eyes the same thing: His integrity is unimpeachable. We are proud to have been his clerks and to remain his friends. And we unequivocally reject attacks on his integrity, his character, or his ethics."

*While leftists in Congress and in the media ramped up their campaign to smear Supreme Court Justice Clarence Thomas for so-called ethics violations, 112 of his **former clerks** issued a remarkable testimony of the man's praiseworthy values. Among the signatories of the letter are current state solicitors general, partners in litigation firms, and law professors.*

What Biden Has to Do to Get Reelected

“He has to get control of the border. Right now! Ask for the resignation of Alejandro Mayorkas, his failed homeland security secretary. Put a highly respected military officer ... in the job. Work with Mexico to further strengthen its border with Guatemala. And invest infrastructure funds to build that damn wall. Because if Biden doesn’t get control of the border, it will become Donald Trump’s signature — and possibly winning — issue in next year’s campaign.”

*In a column appearing in The New York Times, **Bret Stephens** presented opinions about numerous topics. But he stressed the significant problem at our nation’s southern border mainly because he fears that, if Biden fails to follow the suggested course of action regarding the border, Donald Trump will win the presidential election in 2024.*

California Losing Population as Many Choose to Live Elsewhere

“The state lost more people than it gained in each of the last three years.... California already lost a congressional district for the first time in its history, after the 2020 census, and could eventually lose more.”

*New York Times reporter **Corina Knoll** also noted that “California’s influence could shrink while other states like Texas and Florida grow.”*

Professor Claims Central Bank Digital Currency Would Lead to a Better World

“There is a huge potentially better — and some people might see it as a darker — world where the government decides that units of central bank money can be used to purchase some things, but not other things that it deems less desirable, like say, ammunition or drugs, or pornography, or something of the sort. And that is very powerful in terms of the use of a Central Bank Digital Currency.”

*Speaking at a recent World Economic Forum event in China, Cornell University Professor **Eswar Prasad** endorsed scrapping existing monetary systems and putting central bank digital currencies in their place. A former head of the UN’s International Monetary Fund Research and a senior fellow at the Brookings Institution, he openly favors the potential for what he terms “dark control” over freedom.*
