“But the other obviously glaring possibility is that injecting billions of people with a vaccine that was not tested, by any stretch of the imagination, with the thoroughness that it should have before it was forced upon people, also might be a contributing factor. Partly because we know that it led to a rise in myocarditis among young men, and we also know that there was absolutely no reason whatsoever to ever recommend that that vaccine was delivered to young children, whose risk of death from Covid was so close to zero, that it might as well have been zero.”

Stephanie was just incredible. Their child, brand-new beautiful baby, innocent as can be, doesn’t know

“The 15-minute cities is something that the WEF has created called C40 Cities.... Basically, you won’t be able to drive a petrol or diesel car anymore. You’ll have to buy electric. If you want food, you will get a calorie-controlled system sent to you by text, saying, ‘This is what you can eat today.’ If you violate any of these things, they will freeze your bank account.”
