Robert F. Kennedy, Jr. (Gage Skidmore)

“Minors cannot drive, vote, join the army, get a tattoo, smoke, or drink, because we know that children do not fully understand the consequences of decisions with life-long ramifications.... I don’t think children can genuinely consent to repurposed castration drugs (puberty blockers) and surgical mutilation, which have permanent, irreversible effects.”

**Robert F. Kennedy, Jr.** posted this social-media message in May. Major media pounced, accusing him of pivoting on so-called gender-affirming care for minors. However, last year ABC News reported that, though the Democratic presidential hopeful respects “gay rights,” he is “wary to support therapies for transgender minors.”

“Despite Cildir’s immigration status and involvement in the crash, the source said that York County District Attorney Kathryn Slattery has been reluctant to pursue charges against him, potentially due to Cildir facing deportation if charged with a crime.”

He failed to mention that he was one of those spreading propaganda. On August 23, 2021, he appeared on CNN’s Don Lemon Tonight, mocking those who used the medication: “Ivermectin? A dewormer? Really? They need to be called out and shamed.”*

*“Researchers at Cornell University have built the nation’s first and only ‘animal respiration stall,’ an enclosed housing for cows that will enable them to accurately measure the exact amount of methane they belch and fart into the environment. In other words, they have built a hermetically sealed fart chamber.”*

*Oil and gas industry veteran **David Blackmon** made this announcement on his Energy Transition Absurdities blog, predicting that the outcome of Cornell’s research will be new bureaucratic regulations requiring farmers to measure their cattle’s carbon hoofprint.*
