Uncommon Earth

In the June 18 issue of The New American (“International Scientific Conference Deems Evolution a ‘Hoax’”), Alex Newman wrote: “Far from being a common, insignificant speck, then, the Earth is ‘a very special planet in a very special place.’”

It is in a very special place, indeed. In fact, the latest satellite data pertaining to the universe’s Cosmic Microwave Background (CMB) radiation shows that the Earth is at the very center of the universe. Professor Lawrence M. Krauss, who is a theoretical physicist at Arizona State University, stated the following in an interview with Edge.org on July 5, 2006: “When you look at [the] CMB map, you also see that the structure that is observed is in fact, in a weird way, correlated with the plane of the earth around the sun. Is this Copernicus coming back to haunt us? That’s crazy. We’re looking out at the whole universe. There’s no way there should be a correlation of structure with our motion of the earth around the sun — the plane of the earth around the sun — the ecliptic. That would say we are truly the center of the universe.”

Problem and Answer for America’s Slide Downhill

As America slides continually into lawlessness, immorality, and deception, we look to see any hope of reviving our once-great nation.

I believe the answers begin in our education systems, where political correctness has had a huge hand in changing the culture, the way we perceive right and wrong, morality and immorality.

It’s where truth takes a backseat to everything. Political correctness stifles freedom of speech, and debates become one-sided because it changes all the rules to favor the Left. It’s where emotion overrides logic and makes the rule of law ineffective. Issues such as illegal-immigration, gay “marriage,” gun control, foreign policy, and even climate change are decided on emotion, instead of logic, common sense, or our Constitution.

Schools have produced a culture of victims who find it very profitable to remain victims. They even create racism where it doesn’t exist, to create more victims.

This liberal ideology promotes a worldwide slave state in which humanity is helpless, because without truth there is no freedom. Government without consent of the governed is the definition of slavery. Lack of transparency and accountability leaves our citizens vulnerable to fraudulent laws such as ObamaCare.

Hitler used political correctness to silence the people. It’s also effective here. Political correctness demands that people believe something even if evidence proves otherwise. One example is multiculturalism, which is in many cases harmful. Political correctness enslaves people to a false ideology.

Shame for Attempted Shaming

Is there any courtroom, at any level, in all the land, in which a sitting judge is subject to attack, much less prolonged attack, by the prosecution or the defense attorneys?

Yet after subjecting Judge Brett Kavanaugh to malicious attacks, how then can Judge Kavanaugh's detractors claim that his singular strident retort to the Senate Judiciary Committee, after a month of vicious attacks on him by its Democrat members and their ilk, be considered to be an impediment to his fitness to serve on the Supreme Court?

Had Judge Kavanaugh ever exhibited anything but decorum during his years on the bench?

Is not this latest nationally orchestrated "vote of no confidence" just the latest round of Saul Alinsky-ite attacks on him?

Have the various organs of the media no shame for inciting deranged members of the public to make violent threats against the judge, members of his family, and numerous U.S. senators (and their family members) themselves?
