Pelosi Wants Jail for Trump, Not Impeachment She Knows Will Fail

"I don't want to see him impeached. I want to see him in prison."

*Most Democrats don't understand the reason why **Nancy Pelosi** has adopted such an attitude. The reason stems from her awareness that an impeachment of Donald Trump would not result in a Senate conviction and removal of the president. And it would make him a martyr and help him win reelection in 2020. So to quiet the restless Democrats who want impeachment and removal, she offers a different condemnation.*

Teacher Fired After Asking Trump to Deal With Illegal Students

"Anything you can do to remove the illegals from Fort Worth would be greatly appreciated. The school system has been taken over by undocumented students from Mexico."

*A 20-year veteran English teacher sent several tweets to President Trump, thinking that her messages were protected as private messages. They weren't and, after the local school board examined what she had stated, English teacher **Georgia Clark** found herself dismissed for sending "racially intolerant and/or insensitive" messages.*

Headline-grabbing New York Congresswoman Wants More Pay

"I see members all the time; I see the financial pressure they're under because this job is unique. Members of Congress, retail workers — everybody — should get a cost of living increase to accommodate for the changes in our economy."

*Rank-and-file members of Congress have been paid \$174,000 annually for the past 10 years with no cost-of-living increases. Representative **Alexandria Ocasio-Cortez** (D-N.Y.) doesn't seem to understand that the federal deficit spending/borrowing she applauds leads to the dollar losing value and is the cause of her apparent monetary woe. Her Boston University degree in economics obviously didn't include the truth about inflation, an elementary economic lesson regularly ignored.*

Hundreds of Thousands in Hong Kong Protest in Vain

"The major problem is that Xi Jinping holds power in China, and he is a strongman. Most people know this reality but they have come out to show the world that this legislation is not the will of the Hong Kong public."

*The Chinese Communist government led by Xi Jinping has announced a new policy to deal with anti-Beijing demonstrators. They will be extradited and disciplined, not in Hong Kong itself, but in Mainland China, where any demonstrations against Beijing's control will be met with a severe response. Lecturer **Ivan Choy** at the Chinese University of Hong Kong fears for the future of the former British colony.*

Is a Possible Tariff on Mexican Goods Inconsequential?

*A small-business owner in Chandler, Arizona, **Dodie Bell** makes an excellent point about the immigration crisis and a possible tariff to deal with it.*

Germany’s Chancellor Favors Globalism

“Tear down walls of ignorance and narrow-mindedness. Changes for the better are possible if we tackle them together.... Take joint action in the interests of the multinational, global world.”

*In her May 30 commencement speech at Harvard University, German Chancellor **Angela Merkel** saw fit to express support for the type of globalism she has long favored.*
