Transgenderism Grows by 1,500% Among Swedish Children

From [FreedomProject Media](#):

The brainwashing and Swedish government peddling of gender confusion starting even before Kindergarten is obviously working — extremely well, in fact. According to the latest figures, the number of girls claiming to be “transgender” in Sweden has surged by some 1,500 percent in just the last 10 years. And experts say the worst is likely yet to come.

The latest data on the explosion of so-called “gender dysphoria,” the term used by quack psychiatrists trying to normalize gender confusion, came from a report by the Swedish government’s “[Board of Health and Welfare](#).” Similar increases, albeit not quite as huge, are occurring in every country where government is systematically brainwashing children with gender confusion.

But the Swedish government document outlines and examines what appears to be an unprecedented increase in the number of people claiming to feel “discomfort” and “distress” because their supposed “gender identity” does not match their “biological sex assigned at birth,” also known as their actual sex. If left unchecked, the sky is the limit.

“The increase that has been observed over the past ten years is mainly attributable to children and young adults, and especially to those registered as girls at birth,” the agency said. “The number of new cases of diagnosed gender dysphoria among registered sex girls aged 13-17 has increased by almost 1,500 percent since 2008.”

Overpaid government functionaries claimed not to know what was causing this mass delusion. “Yes, that the increase is clear, there is no doubt, however, we do not know what the increase is due to,” claimed Peter Salmi, an investigator at the National Board of Health and Welfare who is either a moron or a liar.

In the real world, anybody with two brain cells to rub together knows exactly what the surge is being caused by: Never-ending propaganda and indoctrination of captive inmates in the Swedish government’s radicalized schools, which begin pushing gender confusion even before toddlers can talk and continue ramping it up until they graduate.
