March Border Encounters Surpass 221K. Biden Frees 80K-Plus to Establish Illegal-alien Colonies

The Biden administration's plan to replace and dispossess the American people hit the speed of sound in March, and might soon, if the Sleepy One and his Border Treason Backers get their way, hit the speed of light.

Border agents encountered more than 221,000 illegals at the frontier with Mexico in March, and immigration authorities freed more than 80,000 to roam the heartland and begin erecting illegal-alien colonies that cannot be displaced.

March's total surpassed February's by 33 percent. Total border encounters for the year now number more than one million.

Monthly, Yearly Encounters

The mind-boggling pace of encounters surpasses any months in the last several years, [yearly data](#) at the U.S. Customs and Border Protection website show.

CBP reported 221,303 encounters with illegals — again, up more than 30 percent over February's 165,894. The number vastly exceeds the previous records set after Biden took office: 213,593 encounters in July last year, then 209,840 in August.

Encounters for the first half of fiscal 2022, which began on October 1, are now 1,060,954. If the pace continues, agents will confront an eye-popping 2.12 million illegals.

But that's only if the pace through the first six months stays the same. In March, agents encountered more than 7,138 illegals per day. If that keeps up, by the close of the year on September 30, agents will handle more than 2.3 million.

As [The New American reported](#) on April 1, the pace is likely to increase to as many as 18,000 per day when Biden lifts the application of Title 42. That's the law that President Trump used to immediately expel illegal aliens on health grounds because of the China Virus pandemic.

Monthly, Monthly Yearly Releases

The number of illegals Biden released are found in court filings in the case of [Texas v. Biden](#).

Written by [R. Cort Kirkwood](#) on April 19, 2022

In March, CBP and Immigration and Customs Enforcement freed 80,116 illegals to build beachheads across the country; no future administration, even if it wanted to, will have the courage to arrest and deport them.

So for the first six months of fiscal 2022, Biden has released 398,816, or 37.6 percent of the illegals his immigration authorities had in custody.

The figures for October through February are these:

- February: 55,043
- January: 62,573
- December: 74,799
- November: 83,725
- October: 42,560

States Sue

As Biden and his leftist deputies continue refusing to enforce immigration laws, except against whites from Europe and other legal immigrants who have refused the Covid vaccine, 21 states have sued to stop Biden from lifting Title 42 expulsions.

Arizona, Missouri, and Louisiana [filed suit](#) in the Western District of Louisiana in early April, but 18 states joined it last week, [Fox News reported](#):

“The Biden Administration’s border policies are a disaster for our country and the safety of our citizens,” said Florida Attorney General Ashley Moody, whose state is one of the new additions to the case. Moody called President Biden’s decision to lift Title 42 a “reckless” one.

“I will keep fighting every day to protect Floridians from his catastrophic leadership,” Moody said.

Such is the danger of lifting Title 42 that even Democrats have called out Biden. West Virginia Senator Joe Manchin, as the original [lawsuit says](#), called the decision “frightening.”

Said Manchin:

We are nowhere near prepared to deal with that influx. Until we have comprehensive, bipartisan immigration reform that commits to securing our borders and providing a pathway to citizenship for qualified immigrants, Title 42 must stay in place.

Other Democrats say Biden is precipitating a major crisis, as [The Hill reported](#).

“Sens. Mark Kelly (D-Ariz.), Raphael Warnock (D-Ga.), Catherine Cortez Masto (D-Nev.) and Maggie Hassan (D-N.H.), who are all on the ballot in November, have all come out against rolling back the Trump-era rule. Kelly and Hassan also traveled to the border last week, using the stops to question the administration’s strategy,” the website reported.

Kellys says the “administration does not have a plan,” and lifting Title 42 is “going to be a crisis on top

of a crisis.”

Kelly will never admit it, but the “crisis” [is planned](#). And it’s tantamount to treason.
