## Mayorkas Confession: 20 Percent of Illegals He and Biden Let in Country Are Sick

Speaking to *Fox News Sunday's* Chris Wallace this week, Homeland Security Secretary Alejandro Mayorkas emphatically said that the Biden Regime would continue permitting illegals to enter the country.

[When Wallace asked](#) about the steady stream of Haitians heading for the United States, Mayorkas was clear: "It is the policy of this administration: we do not agree with the building of the wall. The law provides that individuals can make a claim for humanitarian relief. That is actually one of our proudest traditions."

So, apparently, is sending those "migrants" into the heartland to spread disease: Twenty percent of the illegal aliens that surged across the border with Mexico in the last few months are sick.

Some might say Joe Biden is waging germ warfare against the country he swore an oath to defend.

### Immigration Speech

[Mayorkas admitted](#) inoculating the nation with illegal-alien-carried diseases during a speech for the leftist Migration Policy Institute's Immigration Law and Policy Conference.

"What I didn't expect was the tragic rise of the delta variant," Mayorkas told the worthies of the Open Borders Lobby. "I did not expect to be in late September where we are."

Someone might want to ask why the nation's top security official didn't expect it. Maybe he was too busy dumping diseased illegals onto the American taxpayer and into American health facilities to read the newspaper.

But at least he had some vague idea of how many illegals are sick.

"We are confronted with a population of people that, as a general matter, that have a rate of illness of approximately 20%," the Cuban immigrant said:

When one is speaking of 7,000 or 7,500 people encountered at the border every day, if one takes a look at the system, it is not built for that in a COVID environment where isolation is

required.

As the [New York Post reported](#), that admission comes days after Mayorkas confessed that the Biden Regime [didn't test](#) any of the nearly 15,000 Haitians, quickly imported [after the Big Whip Lie](#), for the China Virus.

Border agents did not whip the illegals. What lying radical leftists said were whips were reins the agents use to handle their horses. Nor did they use the reins as whips, as some claimed and enhanced photos showed. <https://t.co/5Ic1uW26Po>

## How Many Sick “Migrants”

If what Mayorkas says is true, then 3,000 of the Haitians carry the China Virus or another disease.

But those Haitians aren't, of course, the only illegals whom Biden and Mayorkas [are busing](#) and [flying around](#) the country.

As U.S. Customs and Border Protection [has reported](#), border agents have arrested or detained more than 1.5 million illegals since the beginning of fiscal 2021.

If 20 percent of them are ill, then Biden and Mayorkas have exposed Americans to *300,000 diseased illegals* who possibly carry the following diseases, many once wiped out in this country as a practical matter:

- Mumps;
- Measles,
- Chicken Pox;
- Leishmaniasis;
- Typhus; and
- Tuberculosis

The population of Pittsburgh, Pennsylvania, is about 302,000. Depending on how many of the illegals have been deported, the Biden Regime has possibly imported *an entire major city of the sick and diseased*. And, of course, that number does not include got-aways, the illegals who slipped past the Border Patrol. Nor does it include the Afghans whom Biden dumped onto military bases across the country. They [have measles and other diseases](#).

Sick illegals won't just flood hospitals. Sick illegals will flood schools. Sick illegals will flood banks, theaters, and restaurants.

Americans, of course, will pay the price, and not just in taxpayer subsidies to feed and educate and pay for their medical care. Americans will get sick and pay their own medical bills. Some will die.

As [The New American reported](#) in July, cops apprehended a number of illegals who were coughing and sneezing at a Whataburger in La Joya, Texas. Biden, Mayorkas, and leftist-controlled Catholic Charities secretly released the migrants into the town.

wearing masks.

Police intervened after a citizen flagged them down. Officer spoke with the hotel owner.

How many Americans have fallen ill with diseases once thought virtually wiped out is unknown.

Not that it matters to the regime. If they die, so be it. A replacement population is ready and waiting in the Third World.
