AMA, Two Other Medical Groups, Want “Gender-affirming Treatment” Opponents Prosecuted

The latest sign that cultural Marxists control every major institution in the United States comes from the American Medical Association. With two affiliates, it has demanded that the federal government prosecute those who oppose the mass mutilation of children and adolescents with “gender-affirming treatment” for the mentally ill who mistakenly believe they are the “wrong gender.”

Doctors and hospitals nationwide are performing mastectomies on girls and passing out puberty-blockers like candy. Now that the “treatment” has been exposed for what it is on social media, the AMA and its co-conspirators in the mutilations and drugging want opponents jailed and silenced.

In a letter to leftist Attorney General Merrick Garland, the AMA, the Children’s Hospital Association, and the American Academy of Pediatrics don’t just urge Garland to investigate and prosecute those who threatened doctors and hospitals. They want the feds to target those who spread “disinformation” and presumably, lawful protesters. The troika also wants Big Tech to shut down those who oppose “transgender” ideology.

That, presumably, would include journalists, and even the victims of this “treatment” who are attempting to reclaim their wrecked lives.

Patients should be able to access care without fear for their safety. We join [@AmerAcadPeds](#) & [@hospitals4kids](#) in urging [@thejusticedept](#) to investigate threats of violence against health pros providing & patients seeking evidence-based gender-affirming care <https://t.co/NnXfokKexH>

The Truth Comes Out

The trouble began for children’s hospitals and doctors when Libs of TikTok began posting video and websites, published by hospitals themselves, that show just what’s being done to kids under the guise of “gender-affirming treatment.” That’s CultMarx code for mutilations and drugging.

Two days ago, LOTT exposed the Barbara Bush Children’s Hospital.

“Barbara Bush Children’s Hospital in Maine has a ‘gender clinic’ which offers puberty blockers to kids, cross-sex hormones, guides for boys on ‘tucking’, and guides for girls on ‘chest binding,’ LOTT tweeted

in a long thread.

They also promote their services in helping young children fully transition:

The thread showed boys how to push their testicles back inside their inguinal area and "tuck" their penises between their legs.

LOTT also exposed mutilations at Boston Children's Hospital.

Boston Children's Hospital was exposed for offering "gender affirming" surgeries to minors. After the videos went viral, they quietly updated their website while Politifact ran cover for them with a false fact-check.

Weeks ago, [The Washington Post published](#) a story that said LOTT must be blamed for bomb, death, and other threats against Boston Children's Hospital, Children's Hospital in Washington, D.C., and other medical establishments.

But normal Americans and other prominent social-media figures are also protesting. [Some are victims](#) of "transgender" brainwashing and "gender-affirming treatment." They now say they needed psychiatric help to disabuse them of the false idea they were the "wrong" gender. They didn't need hormone pills and irreversible mutilation to help them "transition."

Prosecute Those Who Oppose the Mutilations

"From Boston to Akron to Nashville to Seattle, children's hospitals, academic health systems, and physicians are being targeted and threatened for providing evidence-based health care," the [letter from](#) the AMA and its associates says.

Complaining of "bomb threats" and the need for "24/7 security," the letter says "Children's hospitals and their medical staffs continue to face increased threats via social media — including to their personal accounts. Coupled with harassing emails, phone calls, and protestors at health care sites, there is elevated and justifiable fear among families, patients, and staff."

But next came the demand that Garland punish not only those who make bomb threats, but also those

who oppose CultMarx medicine and spread “disinformation.”

“The attacks are rooted in an intentional campaign of disinformation, where a few high-profile users on social media share false and misleading information targeting individual physicians and hospitals, resulting in a rapid escalation of threats, harassment, and disruption of care across multiple jurisdictions,” the [letter says](#):

Our organizations have called on technology companies to do more to prevent this practice on digital platforms, and we now urge your office to take swift action to investigate and *prosecute all organizations, individuals, and entities responsible*. [Emphasis added.]

Christopher Rufo, who exposes leftist ideological shenanigans such as Critical Race Theory in schools and corporations, likened the threat to one from the National School Boards Association. [It called](#) upon Garland to label parents who oppose critical race theory “domestic terrorists.”

“This is now the Left’s playbook,” he tweeted. “They want to stifle dissent, suppress speech, and criminalize opposition.”

This is now the Left's playbook: last year, the National School Board Association, Department of Justice, and F.B.I. worked together to label parents who opposed critical race theory "domestic terrorists." They want to stifle dissent, suppress speech, and criminalize opposition.

— Christopher F. Rufo [@realchrisrufo](#) [October 3, 2022](#)

“The morality of this situation is blindingly clear,” he continued:

- Threatening hospitals is wrong.
- Censoring journalists is wrong.
- Criminalizing political opposition is wrong.
- Surgically removing a child’s genitalia is wrong.

If "gender-affirming care" is so good, the activists and doctors who promote it—and profit from it—should defend their practices in the realm public opinion. In a democracy, everyone gets to weigh in on important issues, not just regime-approved apparatchiks.

The key target will be LOTT. Last week, [Twitter suspended](#) LOTT for seven days because it exposed sex crimes against children committed at drag queen shows.

As for the AMA, it is no longer a serious medical organization. It recently mentioned “pregnant people” in a pro-abortion tweet.

An antiquated 1901 law that jeopardizes the health and safety of pregnant people in Arizona, placing extreme burdens on providers of essential reproductive health care, cannot
