Are “Armed Marches” Planned for Inauguration a False Flag?

In the wake of last Wednesday’s tragic events at the U.S. Capitol, reports are claiming that a call has gone out for a large-scale armed revolt to take place at all state capitols and the U.S. Capitol. ABC News Radio correspondent Aaron Katersky tweeted that ABC has obtained an FBI bulletin stating that “Armed protests are being planned at all 50 state capitols from 16 January through at least 20 January, and at the US Capitol from 17 January through 20 January.”

Replies to his tweet include samples of what appear to be flyers promoting the “armed protests” planned in case President Trump is removed from office ahead of his planned departure on January 20.

The flyers call for “armed march[es] on Capitol Hill and all state capitols” and provides the addresses of all capitols.

CBS News [reported](#):

The FBI is warning law enforcement across the country that groups are calling for the “storming” of federal, state and local courthouses in all 50 states if President Trump is removed from office prior to Inauguration Day on January 20, a law enforcement source told CBS News.

The groups are calling for participants to come armed at their own discretion, according to the FBI’s alert, which also said that there are reports of non-specified threats being made against President-elect Joe Biden, Vice President-elect Kamala Harris and Speaker of the House Nancy Pelosi.

And the *Washington Post* [reported](#):

Pentagon leaders must balance an array of threats on state capitols nationwide against the potential for renewed extremist violence in Washington, D.C., as they consider security

plans ahead of President-elect Joe Biden's inauguration, senior officials said Tuesday.

Intelligence suggesting the potential for armed riots or attacks on state governments across the country came into focus as the Defense Department scrambled to ensure an adequate plan for providing National Guard aid for the Jan. 20 inauguration and avoid a repeat of last week's attempted insurrection at the U.S. Capitol.

And [from CNN](#):

States across the country are increasing security at their capitol buildings ahead of what the FBI has warned are "armed protests" being planned at all 50 state capitols.

An internal FBI bulletin obtained by CNN warns that armed protests are being planned at state capitols from Saturday through at least Inauguration Day next Wednesday. The bulletin suggests there are threats of an "uprising" if President Donald Trump is removed before then.

In an era of such uncertainty, it is not known whether this threat is real or manufactured. This writer thinks it stinks of either a false flag or a Deep State disinformation campaign. But this much is certain: Participation in any such "armed protest" is both a recipe for disaster (of the deadly kind) and counterproductive. Because regardless of who created and distributed the plans for this event on social media, it plays right into the hands of the Deep State and radical leftists.

With Wednesday's stretches-the-imagination impeachment of President Trump for "incitement of insurrection," many who read of these planned events may feel just frustrated enough to participate.

The end result of an "armed march" on and "storming of" government buildings would be the massive bloodshed of Americans and the advent of martial law under Democrat control. The narrative would be that this proves the rhetoric of the Left. America — as we know and love her — would die, then and there. She would never be seen alive again.

This writer (mostly) agrees with the Gateway Pundit's Jim Hoff, who [wrote](#):

Think about this — Last week the demonic left used the assault on the US Capitol to take away your First Amendment right of Free Speech. Tens of thousands of Americans were removed from social media along with the US President.

The far left tech giants took away President Trump's ability to communicate freely to the American public.

The next planned operation is to take your guns.

WE ARE VERY CONCERNED THE RADICAL LEFT IS USING THIS TO START A FIREFIGHT AND TAKE AWAY YOUR GUN RIGHTS!

The left is unafraid.

The Democrats just STOLE a massive landslide election from President Trump.

They removed your right to freely communicate online last weekend.

NOW THEY ARE GOING FOR YOUR GUNS.

While there is no evidence that the FBI's bulletin or the flyers are absolutely the false-flag work of the leftist establishment, the better part of wisdom calls for staying away from any such "armed protests." That is not the way to win back our country from those who have stolen the election and perverted the rule of law. To borrow from the establishment line about COVID-19, "Stay home, save lives."

Concerted action to build an informed electorate is the only solution that will work to save America.

This magazine's parent organization, [The John Birch Society](#), offers just such a plan. With professional field staff and dedicated volunteer members in all 50 states, the JBS has been working since 1958 for "Less Government, More Responsibility, and — With God's Help — A Better World!" The only thing that has ever been lacking is more patriotic Americans to help in that worthwhile endeavor. Concerned patriots who would like to learn what they can do to restore America should consider joining the JBS and becoming involved.

It is a choice between watching America be torn apart by violence on the one hand and using moral, legal means to create an informed electorate on the other hand. For moral, patriotic Americans, that is a simple choice.
