Biden Picks Transvestite for Transition's DoD Review

Joe Biden, who has been declared “president-elect” by the media, is really woke about men who pretend they’re women, and women who pretend they’re men.

Biden appointed a cross-dresser to help babysit the Defense Department during his administration’s putative transition. The lucky fella is Shawn Skelly, who spent 20 years in the U.S. Navy and now masquerades full-time as a woman.

The LGBT-Rest-Of-The-Alphabet Lobby is pink with glee. What American fighting men think about it is a question for another day.

Obama Veteran

While sailing the seven seas, Skelly was a [Naval flight officer](#). He was not a pilot. Skelly retired as a commander, the same grade as a lieutenant colonel in other services. He is also veteran of the Obama Transportation Department, where he helped run the nation’s buses and trains.

Skelly-co-founded something called [Out in National Security](#) (ONS), which “advances our community’s interests by seeking outcomes and goals that positively impact the lives of today’s and tomorrow’s LGBTQIA+ national security practitioners.”

ONS is “a pipeline for LGBTQIA+ professionals into the national security space,” it brags.

If the organization accomplishes its agenda, the result should be clear enough: Cripple the military by filling it with deviants who disrupt morale, discipline, and good order.

[Skelly’s bio](#) explains that he, who calls himself a she, is a trailblazer:

She joined the Obama Administration in 2013, as the first transgender veteran to be appointed by a President of the United States. She first served as Special Assistant to the Under Secretary of Defense for Acquisition, Technology and Logistics at the U.S. Department of Defense, and ultimately as the Director of the Office of the Executive Secretariat at the U.S. Department of Transportation. In 2017, President Obama appointed Shawn to serve as a Commissioner on the newly established National Commission on Military, National, and Public Service. Shawn was recognized as one of a group of transgender veterans in the 2017 OUT100.

Whether Skelly and other “transgender” transition appointees will suggest Drag Queen Story Hour at Defense Department libraries is unknown.

Transgender Ban to be Lifted

Of course, as the [Blade reported](#), Biden will likely surrender the military to the latest sexual revolution. Professional homosexuals and transvestites “are pressing Biden to reverse Trump’s ban on transgender military service in short order upon taking office as litigation against the policy continues in federal courts,” the newspaper reported. “According to a memo from the San Francisco-based Palm Center, Biden could lift the ban against transgender service members in as little as 30 days.”

The effect on morale among real men and women in the military seems to be a secondary concern for the “president-elect.” It goes without saying, for instance, that sending recruits wearing heels, stockings, and eyeliner into a squad bay of Marine recruits at Parris Island will not go over well.

Trump took care of the problem when he banned cross-dressers in 2017, an order that [took effect](#) in 2019.

After consultation with my Generals and military experts, please be advised that the United States Government will not accept or allow.....

[Another report from NBC said](#) that Biden will also press for an AIDs vaccine.

So Biden will be more concerned with keeping sexual deviants happy than defending the nation from such major threats as Communist China, a nation that counts Biden’s son, Hunter, as [one of its best friends](#).

More than half the transition team is women, a [release says](#), and about “40 percent represent communities historically underrepresented in the federal government, including people of color, people who identify as LGBTQ+, and people with disabilities. The President-elect and Vice President-elect are committed to building an administration that looks like America.”

Problem is, Shawn Skelly doesn’t look like America. He looks like [Weimar Germany](#), circa 1930.
