Committee on Weaponization of Fed Gov Begins by Exposing “Rot” in Biden Regime

As House Republicans investigate the Biden administration’s weaponization of the federal government, Representative Jim Jordan (R-Ohio) kicked off the committee Thursday by listing what “dozens and dozens” of FBI whistleblowers have told him and other House Republicans about that weaponization.

Jordan — who chairs the House Judiciary Committee’s Select Subcommittee on the Weaponization of the Federal Government — recounted a damning list of such whistleblower accounts, beginning with the November 18, 2021 alert by an FBI whistleblower that the FBI had created a “threat tag” for parents who showed up at school board meetings across the country to express their concern over radical LGBTQ, “transgender,” and CRT (critical race theory) ideology in their kids’ schools. His list concluded with the November 4, 2022 whistleblower alert that the FBI routinely receives private user information from Facebook without the consent of those users.

Jordan’s list included:

- 11.18.2021 — FBI whistleblower reveals to House Judiciary Committee that the FBI created a “threat tag” for parents voicing their concerns at school board meetings.
- 04.26.2022 — FBI whistleblower discloses that the FBI has been purging FBI employees who attend conservative political events.
- 05.11.2022 — FBI whistleblower discloses that “dozens of parents with the threat tag designation” are investigated by the FBI. (That whistleblower has been stripped of his clearances and suspended.)
- 06.07.2022 — Another FBI whistleblower is retaliated against after giving feedback on an anonymous survey.
- 07.27.2022 — FBI whistleblower discloses that agents are pressured to reclassify cases as “domestic violent extremism” cases to hit self-created performance metrics.

- 09.14.2022 — FBI whistleblower discloses that the FBI views the [Betsy Ross Flag](#) as a terrorist symbol.
- 09.19.2022 — FBI whistleblower discloses that the Washington Field Office is deliberately manipulating January 6 case files to make it appear that “domestic violence extremism” is on the rise. (That whistleblower has been suspended.)
- 11.04.2022 — FBI whistleblower discloses that the FBI accepts private user information from Facebook without the users’ consent. Only conservatives are targeted under this incestuous arrangement between the FBI and Facebook.

As damning as that list is — and given that it spans just less than one year — Jordan stated that it is “only a sampling” of the FBI’s weaponization under the Biden regime. He added, “In my time in Congress, I have never seen anything like this.”

Indeed, the Biden FBI makes the Clinton FBI seem mild and cautious by comparison. Who’d have imagined that things could be so bad that the Clinton years begin to take on a “good ol’ days” veneer?

Jordan said there have been “dozens and dozens of whistleblowers — FBI agents — coming to us, talking about what’s going on, the political nature at the Justice Department.” He added, “It’s not Jim Jordan saying this, not Republicans, not conservatives — good, brave FBI agents who are willing to come forward and give us the truth.”

Jordan says he is confident that many more will come forward and reveal more and more of the rot at the core of our government. As to the depth of that rot, Jordan pointed out that the above-listed corrupt actions (which, remember, are only a “sampling”) only cover the FBI. [He continued:](#)

And this is just the FBI.

Americans have concerns about the double standard at the Department of Justice. Americans have concerns about the disinformation governance board that the Department of Homeland Security tried to form. Americans have concerns about the ATF and what they’re doing to the Second Amendment. And, of course, they have concerns about the IRS and the thousands of new agents who are coming to that organization.

And finally, there are concerns about what we’ve learned in the Twitter Files where Big Government and Big Tech colluded to shape and mold the narrative and to suppress information and censor Americans.

Jordan said he hopes Democrats will work with his committee to expose corruption and begin restoring liberty, but reflected that Democrats had made it clear that they will “fight tooth and nail” against the committee and its goals.

So, while Democrats prepare to fight the exposure of the rot at the core of the Biden administration, House Republicans, “dozens and dozens” of “good, brave” FBI agents, and innumerable concerned Americans are pushing for that exposure. It may be a “tooth and nail” fight, but we can pray that the good will prevail and the truth will out.
