Obama's Mass-Murder Program Needs to Be Stopped

A recently released White House “playbook” shows Obama is illegally operating a drone strike program that basically allows him to kill whomever the administration pleases. This sounds overly dramatic, but it’s simply the truth. There have been numerous Americans who have been killed via drone strike who have not been given a trial by jury. Instead they have been murdered in cold blood by the judge, jury, and executioner himself.

Not only this, but the majority of the country may be on a terror watch list, if official federal documents are to be believed. Ranging from military veterans and Catholics to pro-life activists, Orthodox and beyond, the feds may have their eye on you based on the “metadata” of your electronics — and they may even target you! Don’t believe us? The former CIA & NSA director himself has admitted in public that the Obama administration kills people based on metadata.
