## DOJ Proposes Legislation to Stop Chemical, Surgical Mutilation of Confused Kids

The [Justice Department has transmitted](#) proposed legislation to Congress to stop the chemical and genital mutilation of mentally disturbed kids who falsely believe they are the “wrong sex.”

Pursuant to President Donald Trump’s executive order to stop the barbarism, the bill would forbid so-called gender-affirming but life-altering treatment of “trans” children.

Ending the mutilations was one of Trump’s key campaign promises.

Yesterday the Department of Justice transmitted a legislative proposal to Congress that protects and defends children from chemical and surgical mutilation under the guise of “gender-affirming care,” in line with Executive Order 14187.

“The Department of Justice has heard from...

### The Order

Trump signed his executive order on January 28, a week after he took office. He wrote that the victims of the fake science

soon regret that they have been mutilated and begin to grasp the horrifying tragedy that they will never be able to conceive children of their own or nurture their children through breastfeeding.

As well, the victims are stuck with “lifelong medical complications” and the bills to pay for treatment. The order defines “chemical and surgical mutilation” as

the use of puberty blockers, including GnRH agonists and other interventions, to delay the onset or progression of normally timed puberty in an individual who does not identify as his or her sex; the use of sex hormones, such as androgen blockers, estrogen, progesterone, or testosterone, to align an individual's physical appearance with an identity that differs from his or her sex; and surgical procedures that attempt to transform an individual's physical appearance to align with an identity that differs from his or her sex or that attempt to alter or remove an individual's sexual organs to minimize or destroy their natural biological functions. This phrase sometimes is referred to as "gender affirming care."

Today, it was my great honor to sign an Executive Order banning the chemical castration and medical mutilation of innocent children in the United States of America. Our Nation will no longer fund, sponsor, promote, assist, or support so-called "gender affirming care," which has...

— Fan Donald J. Trump Posts From Truth Social (@TrumpDailyPosts) [January 29, 2025](#)

GnRH agonists are hormones that keep a child from going through the puberty associated with his real sex.

Trump called "gender-affirming" care "junk science." He further ordered agency heads to ensure that institutions that receive federal funding end the mutilations.

The order called for legislation to stop the mutilations.

## **The Bill**

Republican Representative Bob Onder of Missouri and Senator Marsha Blackburn of Tennessee will lead Congress in passing the "Victims of Chemical or Surgical Mutilation Act."

### [The bill will](#)

prohibit healthcare professionals, physicians, hospitals, or clinics from participating in the chemical or surgical mutilation of a child and ... provide a private right of action for children and the parents of children whose healthy body parts have been damaged by medical professionals practicing chemical and surgical mutilation.

In other words, when the victims of the barbarism find out what was done to them, they can sue the doctors and other "health care professionals" who mutilated them, along with the "mental health professionals" who recommend the mutilations.

The legislation's definition of chemical and surgical mutilations mirrors that of Trump's executive order.

In granting the right to sue the Frankenstein doctors who mutilate kids, the [bill offers](#) a generous statute of limitations:

Because these decisions are often made by parents, or medical providers, on a child's behalf, and because these actions often have long term effects that are not discovered until years after the medical actions have been taken, actions brought under this Act may be brought either within 25 years from the date of the eighteenth birthday of an individual

subjected to chemical or surgical mutilation as a child or within 4 years from the time the cost of a detransition treatment is incurred, whichever date is later.

“The Department of Justice has heard from far too many families who have been devastated by mutilative medical procedures that fly in the face of basic biology,” Attorney General Pam Bondi said:

While we continue our ongoing legal battle to protect children, we appreciate our colleagues in Congress who are working diligently alongside us to end these abusive procedures once and for all.

The forthcoming legislation won't be the first.

In August, GOP Representative Nancy Mace of South Carolina introduced [H.R. 4953](#), the Gender-Affirming Child Abuse Prevention Act. “Kids can't get tattoos, sign contracts, or buy alcohol, so why would we let them permanently change their gender?” she wrote on X.

GOP Representative Marjorie Taylor Greene of Georgia introduced [H.R. 3492](#), the Protect Children's Innocence Act, which passed out of the House Judiciary Committee in June. “The Left calls it ‘gender-affirming care.’” Greene wrote on X. “It's child abuse.”

Kids can't get tattoos, sign contracts, or buy alcohol, so why would we let them permanently change their gender?

The Gender Affirming Child Abuse Prevention Act stops dangerous, irreversible procedures on minors and gives victims the power to hold abusers accountable.

Protect... [pic.twitter.com/rrzDSpF4AT](https://pic.twitter.com/rrzDSpF4AT)

— Rep. Nancy Mace (@RepNancyMace) [August 25, 2025](#)

The Left calls it “gender-affirming care.” It's child abuse.

My Protect Children's Innocence Act bans genital mutilation for minors.

This will codify President Trump's executive order, so that no matter who is in the White House our children are safe!

— Rep. Marjorie Taylor Greene (M) (@RepMTG) [August 26, 2025](#)

## **WPATH Discredited**

A key provision in Trump's order bans federal agencies from relying for guidance on the disgraced and discredited World Professional Association for Transgender Health's “Standards of Care 8.”

[Those standards](#) include a link to the deranged Eunuch Archive. Last year, [ReduXX reported](#) that the archive is a collection of “nearly 10,000 ‘erotic’ stories of an extreme sadomasochistic nature,” 3,000 of which [involve children](#). One story involved pedophile sex slavery.

---

In ending the federal government's Gadarene rush into the mutilation business, Trump's order frustrated the malevolent plans of "Rachel" Levine — real name Richard — the mentally ill man whom [President Joe Biden made](#) the No. 2 federal health official.

[Levine zealously promoted](#) the chemical and genital mutilation of kids. Even more radical than WPATH, [he told](#) the outfit to drop its age restrictions on the mutilations found in the standards of care that Trump banned.

Trump ordered Health and Human Services Secretary Robert F. Kennedy Jr. to publish material on the best treatments for kids with gender dysphoria; i.e., those confused about their sex.
