Bill Gates Advised Chinese Communist Group Responsible for Propaganda Campaigns

Bill Gates has a close relationship with the communist Chinese.

The Microsoft founder has [addressed and advised](#) a number of groups that constitute China's United Front, the regime's leading propaganda effort with the goal of influencing Western nations to "take actions or adopt positions supportive of Beijing's preferred policies."

For example, Gates has served on a steering committee for the China-United States Exchange Foundation (CUSEF). CUSEF sponsors trips of American journalists, students, and former politicians to China so they can meet with Chinese government officials.

Gates was on a CUSEF steering committee "providing valuable advice and comment" on a report from 2013 [entitled](#) "US-China Economic Relations In The Next Ten Years: Towards Deeper Engagement And Mutual Benefit."

The 400-page report, authored by American academic and business leaders in collaboration with Chinese Communist Party (CCP)-allied counterparts, calls for "even more business to business collaboration in science and technology," "relaxation of U.S. export controls of high-tech products," and more policies to promote closer ties between the two nations.

Members of CUSEF-sponsored delegations for American college students have also met with China-based officials from the Gates Foundation.

Moreover, Gates, along with former British Prime Minister Tony Blair, spoke at a 2012 forum hosted by the China Association for International Friendly Contact (CAIFC):

A CAIFC press release reads:

To celebrate the tenth anniversary of the "Beijing Charity Gala Ball", the China Association for International Friendly Contact (CAIFC), together with Caijing Magazine and "Beijing Charity Gala Ball" committee, initiated the "First China Philanthropy Forum" in Beijing on November 30th. More than 300 public-spirited celebrities engaging in various fields from America, Europe, Australia and China attended the forum. Li Zhaoxing, chairman of the organization committee of the forum and chairman of the CAIFC, made the opening speech. Blair, former British Prime Minister delivered a keynote speech and Bill Gates, the prominent American philanthropist, extended his congratulations on the forum by video presentation.

The U.S. government has described CAIFC as “a front organization for the former General Political Department” for the CCP, performing “dual roles of intelligence collection and conducting propaganda and perception management campaigns.”

“CAIFC has additional ties to the Ministries of State Security, Civil Affairs, and Foreign Affairs, and it is a platform for deploying undercover intelligence gatherers. In addition to sending intelligence collectors abroad, CAIFC sponsors trips to China by foreign military and veteran groups, businesspeople, and former politicians which typically include contact with hand-picked People’s Liberation Army personnel,” [adds](#) the U.S.-China Security and Economic Review Commission report.

Microsoft, along with Facebook, Apple, and Amazon, is among the American tech firms to be [represented](#) at a conference held by the Cyberspace Administration of China, which leads the Chinese Communist Party’s digital COVID-19 disinformation campaign.

Gates has long been known for his shadowy ties. The third-richest man in the world [met](#) deceased financier and pedophile sex-trafficker Jeffrey Epstein on multiple occasions, flying on Epstein’s private jet and visiting him at his opulent townhouse.

Gates stopped contact with Epstein in 2014, but foundation employees stayed in touch with the sex offender through 2017, well after the truth about him emerged. Gates even [gave a \\$2 million donation](#) to MIT’s Computer Science and Artificial Intelligence Lab (CSAIL) at Epstein’s request.

The Microsoft founder champions a number of globalist schemes, including [forced vaccination](#) and depopulation.

TNA’s Alex Newman writes:

During a 2010 “TED Talk,” for example, Gates made clear his belief that a lower population was necessary to save the planet. After he told the audience that human emissions of carbon dioxide would have to go down to zero to avoid killing the planet, he totaled up emissions from each person and said, “Probably one of these numbers is going to have to get pretty near to zero.” He added, “The world today has about six billion people. That’s headed up to about nine billion. Now, if we do a really great job on new vaccines, healthcare, and reproductive health services [contraception and abortion], we could lower that by perhaps 10 or 15 percent.”

Gates’ actions prompted Italian parliamentarian Sara Cuniel of Veneto to blast him as a “vaccine criminal.”

“Still today, Gates causes more death than the diseases,” she said of the billionaire.
