Unidentified Man Says Trump Will Not Be President; Insiders Planning to Stop Him

In the second frightening such video to surface this week, a far-left nutjob warns that President-elect Trump “will not take” office because government insiders will prevent his inauguration.

Wearing an Air Force wool cap, the unidentified white leftist said that hate-Trump workers in the “three-letter agencies” — presumably meaning the CIA, FBI, and possibly, the NSA (National Security Agency) — will stop Trump.

The burly crackpot did not say how these heroes of democracy would strike.

In video released earlier this week by O’Keefe Media Group, a top Pentagon contractor said he was working with “retired generals and admirals” to thwart Trump.

“This Clown ... Not Gonna Take Office”

Over a caption that says, “Goodbye Trump,” the hate-Trump talker, who appears to be 50 to 60 years old and wears a Space Force jacket, claimed that “Trump has no empathy for regular people.”

“And thank God that the men and women of the three-lettered agencies are gonna come to our aid — the silent heroes behind the scenes that don’t toot their own horns,” he continued:

They work in silence and they’re gonna pounce and save us. They’re gonna save our democracy and save our nation. And the world is going to breathe a sigh of relief. And we’re going to applaud them.

The attorney general who handles the FBI, the CIA, and law enforcement, you think they’re gonna let this clown come in, with all his doofy-a** cabinet and everything, come in and cut everything apart, and rip our country apart, tear down these institutions?

The speaker allowed that the government needs a “little bit of tweaking,” but that government agencies are packed with bureaucrats full of “integrity and goodness.”

“Come on, man,” he said, channeling Joe Biden:

Him going in doing that, all it does, is makes us vulnerable to our enemies. If they were going to do anything to us, it would be soon as he takes office, if he were to take office. But he’s not gonna take office. Donald Trump is not gonna be our next president.

Secret Service agents should wonder just what the speaker means. If he’s telling the truth — as

opposed to speculating — Deep Staters inside the intelligence and law-enforcement agencies were or are planning either a coup or an assassination.

In 2016, [they collaborated](#) with Hillary Clinton’s presidential campaign [to push](#) the Russian Collusion Hoax that nearly wrecked Trump’s first term. The far-left, hate-Trump media helped, of course. Four years later, again [with the help](#) of the media, [they killed](#) the Hunter Biden laptop story [by calling it](#) Russian disinformation. The goal: protect President Joe Biden’s presidential effort.

Earlier Video

The not-so-subtle threat against Trump followed another that surfaced a few days ago.

Jamie Mannina, a top Pentagon contractor who works for consulting giant Booz Allen Hamilton, told an OMG reporter that he worked on the “Joint Staff” at the Pentagon. Then he confessed [to working](#) with retired flag officers of the U.S. military to stop Trump.

“I’m in conversation with a couple of retired generals to try to explore what we can do,” a lovelorn Jamie Mannina told an OMG reporter. Like many of those who spill the beans, Mannina thought he was on a date with a fetching young lady. Instead, he fell into a honey trap.

Mannina didn’t name the flag officers, but did say they were “one-, two-, and three-star generals and admirals, you probably know [them], maybe four stars.”

Working for the far-left National Security Leader For America, Mannina claimed he ghost-wrote more than 100 anti-Trump articles for such publications as *The Wall Street Journal* and *National Journal*. He confessed that he “was literally working day and night, nonstop,” which means the Pentagon had employed a contractor to defeat the incoming president.

Harris Backer

But defeating Trump wasn’t Mannina’s only concern. He hoped for a cushy job in the administration of President Kamala Harris.

“So when ultimately when [Trump] won, I was really frankly depressed,” he continued:

I was really sad, really depressed, not only in terms of the mission failure ... but of course I was hoping to advance my career. Had [Harris] won, I would have gotten a pretty big job.

After the OMG video was released, the Pentagon fired Mannina.

A spokesman told OMG that Mannina’s potentially treasonous remarks “do not reflect the positions of the Chairman or the Joint Staff.”

Mannina’s LinkedIn profile explains his job at Booz Allen in the high-falutin’ gobbledygook characteristic of the Doctors of Thinkology who run U.S. foreign policy:

[M]y expertise in strategic communications and international relations drives our mission to navigate complex global security challenges. The team’s collaborative efforts have significantly shaped policy frameworks and response strategies, leveraging analytical skills honed over years of dedicated service in national security.

Mannina is also a former FBI agent and State Department employee and, significantly, Hillary Clinton backer.

Another disturbing few moments on video were National Security Adviser Jake Sullivan's farewell comments to reporters during his final White House press briefing on January 13.

"I just will say one last word, which is, this is — I hope this is my last time at this podium — (laughter) — at least for a little while, and I don't mean that in a negative sense," [Sullivan said](#) in closing:

I mean the only thing that would bring me back is an unexpected event in the next few days, which, as you all know, is totally possible given everything you've seen over the course of the past years.
