How the U.S.-backed War on Yemen Advances Globalism

In this video, foreign correspondent Alex Newman describes how the U.S.-backed Saudi Arabian regime is destroying Yemen, and how this horrifying war advances the cause of globalism. With U.S. troops on the ground and U.S. weapons being used for the slaughter, this concerns every American. Ironically, U.S. forces are allied with al Qaeda's ally even while pretending to fight al Qaeda. But just as importantly, this enormous humanitarian crisis is being used to help advance the establishment's globalist agenda to build first the Gulf Cooperation Council and later the full-blown EU-style Middle East Union.
