

Creation Vs. Evolution at School: Huge Implications of “Fake Science”

In this interview with The New American magazine’s Alex Newman, Creation Today founder Eric Hovind explains what children are being taught in government schools about origins and the meaning of life—and why that is important. The debate between evolution and biblical creation has enormous implications in terms of politics, worldview, understanding of life, and so much more. Hovind also explains why he believes the evolution theory is incorrect, and should not be forced on children as fact at taxpayer expense. Hovind also talks about the two documentaries he recently worked on, *Genesis: Paradise Lost*, and *Trump 2024*.
