The United Nations and the Deep State behind it are exploiting and weaponizing native peoples around the world as a pretext for undermining property rights, prosperity, individual liberty, and national sovereignty, warns *The New American's* Alex Newman in this episode of [Behind the Deep State](#).

Using a variety of international agreements and treaties, the UN is claiming that the U.S. must give a massive amount of land — potentially the entire land mass of the United States — over to tribal governments that are funded by and controlled by the out-of-control federal government.
