The case of Jeffrey Epstein is far more than a sordid scandal—it is a window into the deeply troubling activities of the New World Order. While most Americans recognize Epstein for his horrific crimes involving the trafficking of minors, mounting evidence reveals Epstein was involved in eugenics, transhumanism, and even creating “designer babies.”

In this episode of *Behind The Deep State* for *The New American*, Alex Newman is joined by journalist Cort Kirkwood to examine the extent of Epstein’s crimes and the victims. Drawing from his explosive report, “The Shocking Contents of the Epstein Emails,” published in *The New American*, Kirkwood explores Pizzagate, the Maxwell family, Epstein’s ties to intelligence, and much more.

Of course, exposure is worthless unless Americans stand up and demand accountability for these crimes from our elected officials. Do your part to become educated and then take action before it is too late.
