The climate scam is the greatest “con job” in human history, and the United Nations is responsible for using U.S. tax funds for a globalist “assault” on the borders of Western nations, explained President Donald Trump in his historic address at the UN General Assembly. Trump also undermined the Deep State front group’s *raison d’être* by pointing out that it was not doing what it was supposedly created to do: stop war and promote peace.

Of course, none of these facts are new to regular readers of The New American magazine. But as TNA Senior Editor Alex Newman explains in this episode of Behind The Deep State, the fact that the president of the United States called out these globalists to their faces on the floor of the UN’s premier body is a major milestone in the effort to expose the agenda.

Joining Newman for the second half of this episode is TNA contributor Andrew Muller. Newman and Muller will be going to the 30th UN “Climate of the Parties” (COP30) climate summit in Brazil later this year.
