President Donald Trump is targeting some of the Deep State's most important programs including the "global biosecurity state" and Big Pharma, explained super lawyer Jeff Childers on this episode of Behind The Deep State with The New American magazine's Alex Newman. Childers, who won several historic court victories against Covid-inspired tyranny during the pandemic and gained a huge following with his Coffee and Covid newsletter, explained that the one of the most important fronts against the Deep State is taking on the medical-health tyranny machine. The biolabs in Ukraine are tied into this whole machine, he explained. Of course, the Deep State lawfare against Trump is heating up as he takes on this battle.
