The United Nations Climate Summit has come to a close, and their plan is to simply wait out the Trump administration. Though Trump has called climate change a “con job,” the UN keeps moving forward, bankrupting the West brick by brick and COP by COP, explain The New Americans’ Alex Newman and Andrew Muller on Behind The Deep State.

The scheme also includes mass censorship by cleaning “information ecosystems” of “misinformation” and shutting up all skeptics. Education is key, too, as the UN is banking on indoctrinating youth to embrace climate hysteria.

In this must-see episode, Newman and Muller share shocking clips from their hottest interviews shot on the ground at COP30 in Belem, Brazil, and give you the full story that the establishment media won’t share.
