The United Nations (UN) was founded on October 24, 1945, and has been expanding its powers for 80 years. Though the UN presents itself as anti-war and pro-peace, it actually works to destroy individual and national sovereignty, push false climate change propaganda, indoctrinate children, and create a global government to rule humanity. It must be stopped, explains legendary senior editor for The New American and president of the John Birch Society Bill Jasper to Alex Newman for Behind The Deep State.

While Americans are waking up to the treachery of the UN, there is still work to be done to defund the UN and get the U.S. out for good. Share this video with everyone you know to join the fight for freedom.
