## Dr. Paul Marik: Big Pharma Keeps People Sick

Big Pharma operates like a cartel. The standards of medical care, the healthcare agencies, the research agenda, major medical journals, media, and even the U.S. Congress are all controlled by it, argues Dr. Paul Marik of the Frontline Covid-19 Critical Care Alliance (FLCCC). This cartel, along with equally malevolent Big Food companies, is deliberately keeping people sick. Virtually no single disease, not even cancer, cannot be treated or prevented by a healthy lifestyle, a proper diet, natural remedies and repurposed drugs.

Dr. Marik also shared updates on the protocols of the FLCCC, focusing on treatments for long-haul Covid and post-vaccine syndrome. To learn more, please visit <https://covid19criticalcare.com/>

Dr. Paul Marik, is a co-founder of the Frontline Covid-19 critical care alliance. He's board certified in Internal Medicine, Critical Care Medicine, Neurocritical Care and Nutrition Science. Dr. Marik has written over 400 peer-reviewed journal articles, 80 book chapters, and **four critical care books**.

The conversation took place at the [Better Way Conference](#) in Bath, U.K. organized by the [World Council for Health](#).

## Subscribe to the New American

Get exclusive digital access to the most informative, non-partisan truthful news source for patriotic Americans!

Discover a refreshing blend of time-honored values, principles and insightful perspectives within the pages of "The New American" magazine. Delve into a world where tradition is the foundation, and exploration knows no bounds.

From politics and finance to foreign affairs, environment, culture, and technology, we bring you an unparalleled array of topics that matter most.
