E. Gaylon McCollough: Unmasking the Agenda Behind Covid Tyranny

While most of America's medical establishment was capitulating to the mainstream Covid narratives, [Dr. E. Gaylon McCollough](#) knew something was amiss. As a medical doctor, he had already resigned from the American Medical Association after that organization's endorsement of Obamacare. He has also extricated himself from the medical insurance mafia system and is founder of [The McCollough Institute](#) in Gulf Shores, Alabama. Dr. McCollough is one of the world's leading facial plastic surgeons.

He is also the author of [25 books](#) on subjects ranging from medical to political, and he directs all proceeds to a foundation that provides educational opportunities to young people.

Dr. McCollough met with [The New American](#) senior editor Rebecca Terrell to talk about take-aways from the Covid "planned-demic" and what we can do to preserve our Constitutional liberties. He welcomes contact from other like-minded Americans at drmccollough@mccolloughinstitute.com.
