Ed Griffin Exposes “Creature From Jekyll Island” at Red Pill Expo

JEKYLL ISLAND — In this exclusive interview with The New American magazine senior editor Alex Newman, Red Pill Expo Chairman G. Edward Griffin exposes the Federal Reserve System and the escalating damage it is doing to America’s economy and middle class. He warned that the worst is yet to come. Dubbed “The Creature from Jekyll Island” in his book by that title, the banking cartel known as the “Fed” has been undermining American prosperity and stability for over a century while helping to enrich the elites, he said. However, with enough education and organized action, Griffin was convinced that positive change is possible.
