In this episode of Conversations That Matter with Alex Newman, Dr. Jason Lakatos, a top-of-the-line physician who is board certified in internal medicine, speaks out about his experience in Florida hospitals treating COVID-19 patients with Hydroxychloroquine, Azithromycin, and Zinc. Despite the vastly improved and life-saving results, hospital administrators attempted to block him from giving Hydroxychloroquine and Ivermectin to patients. The administrators instead pushed Remdesivir, which worsened conditions and even hastened the death of patients.
