Jerome Corsi: CSI meets the JFK Assassination

[Jerome Corsi](#) is a *New York Times* bestselling author whose latest work is called [The Assassination of John F. Kennedy: The Final Analysis](#). It's a book he co-authored with Dr. David W. Mantik, who is a radiation oncologist with a Ph.D. in physics. Together, they conduct a forensic analysis of the original autopsy x-rays taken after JFK's assassination.

The book is a sequel of sorts to Corsi's 2013 [Who Really Killed Kennedy?](#) He says that Dr. Mantik's research corroborates his conclusions in that book, but this one is what he calls the "CSI" version. With an introduction by renowned JFK expert Douglas Horne (to whom the authors dedicated their work) and a foreword by the former apostolic nuncio to the U.S., Archbishop Carlo Maria Vigano, the groundbreaking analysis annihilates the "lone-gunman" conclusion of the Warren Commission.

Corsi meets with [The New American](#) senior editor [Rebecca Terrell](#) to discuss the findings revealed in *The Final Analysis*.

You can access Corsi's books and podcast at [The Truth Central](#).
