Description: Listen up SPLC! Hamas IS AN INTERNATIONAL TERRORIST ORGANIZATION. Period. Designated that way by our Department of State. On October 7th members of Hamas raped women, burned and beheaded babies and children, and mass slaughtered innocent civilians, resulting in an Israeli death toll of approximately 1,200 people. They didn't attack military targets. They attacked vulnerable women, children, the elderly, the unarmed. Israelis, as well as Americans, both Jewish and non-Jewish, are now on high alert.

There are many Second Amendment lessons to be learned from these recent attacks and arguments to be made to refute the false narratives spouting from the corporate media about Israel's supposedly loose gun control restrictions, but we are going to use this as an opportunity to present a more positive solution with action. Israel's defense forces have advanced tactical skills that a particular individual, Yonatan Stern, founder of Cherev Gidon Israeli Tactical Training Academy, has been teaching to Americans for over 10 years. We interviewed Stern recently and he offered unique perspectives that are seldom found in the corporate media. We're going to explore why Israel has such strong defense and tactical units, and examine the harm being caused by the lack of gun rights in Israel, in today's episode: "Israeli Tactical Expert Yonatan Stern Exposes Political Gun Grabbing in Israel."

And this week's 2A for Today Modern Militiaman stopped a home invader at the door. The would-be victim promptly defended himself, along with his wife and child who were inside the home. He propelled a few rounds and his hot beverage at the intruder and sent him on the run.
