U.S. debt is out of control, and we are heading toward the edge of an economic cliff. What's more, the elites plan to use the likely coming economic collapse as the perfect pretext to foist central bank digital currencies (CBDCs) on the world, which would turn us all into slaves.

Money expert and former consultant to a number of government agencies Kevin Freeman discusses his mission to restore sound money. Freeman is the author of the bestseller *Pirate Money: Discovering the Founders' Hidden Plan for Economic Justice and Defeating the Great Reset*. He is considered one of the world's leading experts on economic warfare and financial terrorism, and he's working with officials in 25 states to restore sound money.
