German Expert Exposes Danger of “Green” Policies, “Religion”

MADRID — In this interview with The New American magazine’s Alex Newman at the United Nations COP25 climate summit, Wolfgang Muller of the European Institute for Climate and Energy (EIKE) explains the enormous harm unleashed on Germany as a result of the German government’s “green” policies. He also explains that the man-made global-warming hypothesis, now known as “climate change” or even “climate emergency,” has not been properly debated — much less proven. Instead, ANTIFA terrorists make threats to shut down all debate, as the “green” movement became a “religion” with “dogma” that cannot be questioned.
