Communist China Runs the UN | Behind the Deep State

In this episode of Behind The Deep State, host Alex Newman exposes the fact that the dictatorship in Communist China essentially runs the United Nations. It will also play a star role in the New World Order. Alex goes through a recent U.S. government report highlighting the many Communist Chinese agents running key UN agencies and programs including UNESCO, UNIDO, ICAO, FAO, and many more. And unlike people from other nations, Communist Chinese must obey the party's orders while serving in international organizations. The Deep State is falsely trying to blame Trump for this disaster, but in reality, it began long before Trump was even running, and Trump has been the first to seriously try to oppose these developments.
