UK Judge Frees Somali Women Guilty of Vicious Assault

The negative fruits of multiculturalism were on display in the UK's court system this week. A British judge set free a gang of Somali women who had severely beaten a white woman in full view of a surveillance camera. Meanwhile, a group of magistrates jailed a white woman — supposedly for her own safety — after she unbosomed an expletive-laced anti-immigrant tirade on a tram.

Gang Attack

The surveillance video of the [Somalis' wilding](#) of Rhea Page in June 2010 is shocking. [It shows](#) Page and her mate, Lewis Moore, minding their own business when a group of young Somali women suddenly surround her. They begin to punch her repeatedly, knocking her to the ground and kicking her, as Moore tries in vain to rescue her. Such was the ferocity of the beating by the Somalis that they yanked out a large hank of Page's hair.

As London's [Daily Mail reported](#), the 22-year-old redhead was "was left with a bald patch where her hair was pulled out in the attack and was left 'black and blue' after suffering a flurry of kicks to the head, back, arms and legs while motionless on the pavement."

The attack was, apparently, driven by extreme racial hatred. "Kill the white slag," the [gang of young women shouted](#) as they ravaged Page. "Slag" is a British term for slut.

Now the judge has freed the Somalis, the [Mail reported](#), after their attorney argued that their alcohol consumption caused them to attack Page. Noting that Islam forbids drinking, the attorney argued that the young women were unused to the effects of alcohol and thus were not responsible for their vicious attack.

"They're Somalian Muslims and alcohol or drugs isn't something they're used to," the attorney told the judge, the newspaper reported.

Another reason he let them go, the *Mail* explained, was that they "may have felt they were the victims of unreasonable force from Mr. Moore as he tried to defend his girlfriend..."

Refusing even to charge them with a racial bias crime, the judge handed down suspended sentences, a curfew for one suspect, and community service for the others.

"Those who knock someone to the floor and kick them in the head can expect to go inside," he said, the [Mail reported](#).

The [paper said](#) that one of the girls expressed her elation through her Twitter account: “Happy happy happy!,” she wrote. “I’m so going out ... Today has been such a great day.”

[The Mail](#) continued,

Yesterday Miss Page, a care worker, called the light sentences “disgusting” and said the gang deserved “immediate custody.”

“It’s no punishment at all,” she said. “And for them to say they did it because they were not used to alcohol is no excuse. If they were not supposed to be drinking then they shouldn’t have been out in bars at that time of night.

“Even after the police came and they all ran away, one of them came running back to kick me in the head one last time.

“I honestly think they attacked me just because I am white. I can’t think of any other reason.”

Page is in counseling and suffers panic attacks, the [Mail reported](#). She described what the Somali women did to her:

We were just minding our own business but they kept shouting “white bitch” and “white slag” at me. When I turned around one of them grabbed my hair then threw me on the ground.

They were taking turns to kick me over and over. I thought they were going to kill me.

In turn, the *Mail* interviewed one of the gang and asked if she wanted to apologize. “What, to the public? I really don’t care,” she retorted.

Tram Lady

In somewhat of a reversal of the situation — though not involving physical violence — a white woman [who unloaded](#) a stream of vicious invective at foreigners on a tram in London has landed in jail.

A video of the event, which has been viewed more than one million times, shows Emma West, holding her son in her lap, suddenly exploding into a rage about Britain’s mad dash to multiculturalism:

“What’s this country come to?,” she said. “ A load of black people, and a load of f*****g Polish ... You aren’t English, You’re aren’t English, either. You aren’t English none of you is f*****’ English. Get back to your own f*****g [country] ... [unintelligible] your own countries. Don’t come and do mine. ...

My Britain is f*** [unintelligible].

Go back to where you come from ... you ain’t British, you ain’t British ... f*** off .. you’re black. you’re black, you ain’t British ... you’re black ... where’d you come from, where’d you come from, where’d you come from, where’d you come from.

A black lady on the tram tried to get West, who appeared to be either drunk or drugged, to stop cursing because children could hear the scatological tirade, and then a white women who claimed she is British jumped in to help.

[The video](#) quickly landed on YouTube. West was arrested, the [Mail reported](#), “for her own safety after the footage was posted on YouTube on Sunday by LadyK89 and viewed more than 10,000 times.” The [paper said](#) that the video has now been viewed 11 million times.

West was charged with a “racially aggravated public order offence.” The [Mail reported](#) that her

boyfriend told police she had received death death threats, which inspired a panel of magistrates to turn down her request for bail.

“We are told that your address has been widely circulated on Facebook and Twitter and there has been numerous death threats,” a magistrate told West, the [Mail said](#).

“This case has attracted a high degree of public interest as evidence today. For these reasons we are remanding you in custody for your own protection.”

Miss West’s supporters shouted “treason” and “we love you Emma, be strong” as she was led to the cells.

West will be in jail through Christmas.

Police Hide Muslim Crime as Brits Rail Against Immigration

The two stories are significant in that they add more evidence to increasing claims that British authorities fear cracking down on Muslim criminals because of the inevitable charge of racism.

In June, London’s [Telegraph reported](#) that British police are hiding Muslim crime from the public. Muslims have nearly taken over the city’s Tower Hamlets borough, where they severely beat a religion teacher because he taught his students about religions other than Islam. As well, they beat a coreligionist because he smoked during the holy month of [Ramadan](#). They have also declared the Tower Hamlets neighborhood a “gay-free” zone. A mosque has sponsored a game titled “spot the fag,” and Muslims attending public meetings ridicule homosexual public officials by making animal noises.

Such is the power of Islam in England that Muslims [march in](#) the streets [demanding Sharia law](#). A leading Muslims cleric [threatened the Royals](#). Two years ago, [they disrupted](#) a homecoming parade for British soldiers returning from the duty in Iraq and Afghanistan.

Last month, [The New American reported](#) that an e-petition, titled “[No to 70 million](#),” posted at the British government’s website by an immigration restriction organization, gained 100,000 signatures in a week. Since then, another 25,973 names have appeared. Organizers believe the response to the appeal will force the government to debate enacting strict immigration controls to stop the scepter’d isle’s population from growing out of control.
